Forecast Maps

Forecast Maps shows what hunt areas and fishing reservoirs are expected to be open in the foreseeable future.

Forecast Maps provide the best information available at the time of posting. Typically for an upcoming weekend, areas are updated on the Wednesday or Thursday prior to the weekend.

Areas are subject to change or closure without advanced notice.

Early Check-in

FHL iSportsman allows permit holders to check into a hunt area or fishing reservoir the day before starting at 2:00pm.

Early check-in does **NOT** allow early access to the hunt areas or fishing reservoirs. You can only be checked into one hunt area or fishing reservoir at a time. You must check-out before you can check-in again.

Hunters are allowed to enter their checked-in hunt areas two hours before sunrise. Fishing times are one hour before sunrise to one hour after sunset.
